

Windowsill: Wooden

The mark of
responsible forestry

- ✓ FSC™-certified pine and oak timber available on request
- ✓ Interior sills
- ✓ Thickness 30 mm
- ✓ Depth 80–350 mm*
- ✓ Different shapes of corners depending on the selected variant
- ✓ Types of wood: pine, spruce, meranti
- ✓ Types of wood finishing: colors from the azure palette, colors from the RAL palette, clear varnish, raw wood

*Upon customer request, bespoke window sills can be manufactured to a depth of up to 550 mm; however, due to the high risk of warping, these items will not be covered by our warranty.
